

Department of Crop Physiology

ConSept22: Harnessing Plant Physiology To Improve Productivity And Nutritional Value Of Crops

Venue: North Block Auditorium, GKVK Campus

Date: 24th September 2022

KSK - MUK Memorial Lecture

Prof. Paul Struik

Professor, Center for Crop System Analysis
WUR, Netherlands

Brainstorming Session: Invited talks

Dr. Anura Kurpad

Professor, St. John's Research
Inst., Bangalore

Dr. Ashwani Pareek

Executive Director, NABI,
Mohali

Dr. Eswarayya Ramireddy

Assoc. Professor, IISER,
Tirupati

Panel Discussion

Getting Our Graduates Industry-Ready: What Would Industry Expect

***ConSept22: Harnessing Plant Physiology to improve
productivity and Nutritional value***

24th September, 2022

PROGRAMME

Time/duration	Inaugural Session	Moderator: Ms. Chaitanya, UASB
9:30 to 10:00	Welcome	Dr. Savitha M
	About ConSept22	Dr. M.S. Sheshshayee
	Presidential Address	Hon'ble Vice Chancellor, UASB
	Guest of Honour	Dr. S. Rajendra Prasad
	Vote of Thanks	Dr. B. Mohan Raju
10:00 to 10:15	<i>High Tea</i>	
Technical Sessions (TS-1)		
<u>Brainstorming session: Invited talks</u>		
<p>Chairman: Dr. K. Shivashankara Rapporteur: Dr. Ramegowda</p>		
10:15 to 11:00	Dr. Anura Kurpad, <i>Professor, St. John's Research Institute, Bangalore</i>	An evaluation of the nutritional value of crops in India
11:00 to 11:45	Dr. Ashwani Pareek, <i>Executive Director, NABI, Mohali</i>	Dreaming of a 'STRONG' rice for saline and dry land: Journey from understanding the physiology to product development
11:45 to 12:30	Dr. Eswarayya Ramireddy, <i>Assoc. Professor, IISER, Tirupati</i>	Harnessing root architecture and physiology in adopting climate change in crops
12:30 to 13:30	<i>Lunch</i>
